

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES: VINTAGE WORM STEERING BOX OIL

Product No	7921
Issue No.	2
Issue Date	26/02/19

DESCRIPTION:

This product is a high viscosity low friction mineral oil which has been specifically formulated for worm and other types of steering box.

APPLICATION:

Use as received for lubrication of steering boxes on vintage and classic vehicles.

USER BENEFITS:

- Developed to reduce the 'sticky' and heavy steering found on many vintage and classic vehicles.
- Reduced backlash.
- Reduced leakage.

PERFORMANCE PROFILE:

Tested by Rolls-Royce and Bentley engineers who have reported outstanding transformation in steering characteristics.

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.900
Kinematic viscosity at 40°C	ISO 320
Flashpoint °C	200

HEALTH AND SAFETY:

Health and Safety Data Sheet 7921 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
